Approval and Promulgation of Implementation Plans; State of Iowa; Infrastructure SIP Requirements for the 2008 Lead National Ambient Air Quality Standards, Section 110(a)(2)(E)(ii), and a Supplemental SIP for Relevant Iowa Laws and Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve elements of a State Implementation Plan (SIP) submission from the State of Iowa for the 2008 National Ambient Air

Quality Standards (NAAQS) for Lead (Pb) addressing the applicable requirements of the Clean Air Act (CAA) section 110, which requires that each state adopt and submit a SIP for the implementation, maintenance, and enforcement of each new or revised NAAQS promulgated by the EPA. These SIPs are commonly referred to as "infrastructure" SIPs. The infrastructure requirements are designed to ensure that the structural components of each state's air quality management program are adequate to meet the State's responsibilities under the CAA.

EPA is also proposing to approve a supplemental revision for the SIP to include article 1, section 2 of the Iowa Constitution, and portions of the Iowa Code and the Iowa Administrative Code to codify the relevant state laws as applied to conflict of interest provisions.

SUPPLEMENTARY INFORMATION: Throughout this document whenever “we,” “us,” or “our” is used, we refer to EPA. A detailed technical support document (TSD) is included in this rulemaking docket to address the following: A description of Clean Air Act section 110(a)(1) and (2) infrastructure SIPs; the applicable elements under sections 110(a)(1) and (2); EPA’s approach to the review of infrastructure SIP submissions, and EPA’s evaluation of how the Iowa addressed the relevant elements of sections 110(a)(1) and (2). This section provides additional information by addressing the following questions:

I. What is being addressed in this document?

- II. Have the requirements for approval of a SIP revision been met?
 III. What action is EPA taking?

I. What is being addressed in this document?

EPA is proposing to approve the two submissions from the State of Iowa: The infrastructure SIP submission (received November 4, 2011) from Iowa which addresses the requirements of CAA sections 110(a)(1) and (2) as applicable to the 2008 Pb NAAQS, and the submission from Iowa (Received May 11, 2015, that codifies article 1, section 2, of the Iowa Constitution, as well as the relevant sections of the Iowa Code and the Iowa Administrative Code as they apply to conflict of interest provisions addressed in this action are referenced in the “EPA Approved Nonregulatory SIP Provisions” table accompanying this notice.

A Technical Support Document is included as part of the docket to discuss the details of this proposal, including analysis of how the SIP meets the applicable 110 requirements for infrastructure SIPs including specifically section 128 and 110(a)(2)(E).

II. Have the requirements for approval of a SIP revision been met?

The state submission has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. In addition, as explained above and in more detail in the technical support document which is part of this document, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

III. What action is EPA taking?

EPA is proposing to approve the November 4, 2011, infrastructure SIP submission from Iowa which addresses the requirements of CAA sections 110(a)(1) and (2) as applicable to the 2008 Pb NAAQS. In addition, EPA is proposing to approve the May 11 2015 submission from Iowa that codifies article 1, section 2, of the Iowa Constitution, as well as the relevant sections of the Iowa Code and the Iowa Administrative Code as they apply to conflict of interest provisions. Details of these submissions are addressed in a Technical Support Document as part of the docket to discuss the proposal.

Based upon review of the state’s infrastructure SIP submissions and relevant statutory and regulatory authorities and provisions referenced in those submissions or referenced in Iowa’s SIP, EPA believes that Iowa’s SIP

will meet all applicable required elements of sections 110(a)(1) and (2) with respect to the 2008 Pb NAAQS.

We are processing this as a proposed action because we are soliciting comments on this proposed action. Final rulemaking will occur after consideration of any comments.

Statutory and Executive Order Review

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a “significant regulatory action” under the terms of Executive Order 12866 (58 FR 51735, October 4, 1993) and is therefore not subject to review under Executive Orders 12866 and 13563 (76 FR 3821, January 21, 2011).
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Statutory Authority

The statutory authority for this action is provided by section 110 of the CAA, as amended (42 U.S.C. 7410).
